Project BYMBE – Bringing Young Mothers back to education  
N° 2017-1-AT01-KA204-035007

Co-funded by the  
Erasmus+ Programme  
of the European Union

# THE PROJECT

Women getting pregnant at a young age are at a greater risk of social exclusion and poverty. When trying to enter the labour market with no relevant education attainments, they face a double challenge:

- to find free or affordable childcare with adequate working hours for them to reconcile the timetables of childcare, study and work;
- their possibilities are limited to low qualified jobs with low income.

BYMBE project aims to focus on developing support measures for young mothers who are NEET (Not in Education, Employment or Training) to get back to education and training with a view to improving their life chances.

## OUR GOAL

Developing tools to:

- support the work of social workers, teachers and trainers for the purpose of sustaining young NEET mothers in re-entering education or vocational training;
- provide adequate, tailored guidance and support measures to raise young NEET mothers' motivation.
